

DIP.G.O. EXAMINATION' 2007

Paper II GYNAECOLOGY Batch -A/07

Time : 2 hrs.

Question 1.

- a. Define Dysfunctional Uterine Bleeding 10
- b. What are the various terms used to describe menstrual disorder? 10

Question 2.

- a. What are the supports of uterus? 10
- b. How will you manage a case of 3^o Utero Vaginal prolapse in a 30 year old lady? 10

Question 3.

- a. What do you understand by population stabilization? 10
- b. How can you achieve it with the help of Dawn rule of TEN RCH Wheel? 10

Question 4.

- a. What are the causes of female infertility? 10
- b. How will you investigate for Tubal Factor? 10

Question 5.

Write short notes on the following:

- a. IUCD 5
- b. Bacterial Vaginosis 5
- c. Dysmenorrhoea 5
- d. Colposcopy. 5

DIP.G.O. EXAMINATION' 2007

**Paper II
GYNAECOLOGY
Batch: C—07**

Time : 2 hrs.

Question 1. 20

A 15 year old girl is brought to you with heavy menses for last 6 months.
How will you investigate and treat such a case?

Question 2. 20

What are the causes of uterine prolapse?
How will you manage second degree uterine prolapse in a woman during
childbearing period?

Question 3. 20

What do you know about early diagnosis and prevention of cervical
carcinoma?

Question 4. 20

Define endometriosis. What are the symptoms and how will you treat such
a case?

Question 5. 20

Write short notes (any four)

- a) Non scalpel vasectomy
- b) Emergency contraception
- c) Diagnosis of poly cystic ovary syndrome
- d) Low dose CC pill
- e) Monilial infection of genital tract

DIP.G.O. EXAMINATION' 2007

**Paper II
GYNAECOLOGY**

Time:2hrs.

MM:100

Question 1

- a) D/D of Suprapubic lump. **10**
- b) Management of a case of fibroid uterus in 30 year old women. **15**

Question 2

Describe about the:

- a) Female factors responsible for infertility. **10**
- b) Diagnostic Laparoscopy. **8**
- c) Endometrial Biopsy **7**

Question 3

Write in short

- a) Supports of uterus **8**
- b) Predisposing factors for the prolapse of pelvic organ. **8**
- c) Management of proceudeutia **9**

Question 4

Write short notes on:

- a) C.O.C. - Contraindication and side effects. **9**
- b) CIN **8**
- c) Sec. Amenorrhoea **8**

DIP.G.O. EXAMINATION' 2007

Paper II

GYNAECOLOGY

Batch : E— 07

Time:2hrs.

MM:100

Question 1

Describe the endocrine mechanism and physiology of menstruation.
Enumerate the common causes of primary amenorrhoea.

20

Question 2

What are the clinical types of genital prolapse?
Briefly outline the management of second degree uterine prolapse in a woman of child-bearing age group.

20

Question 3

Mention the differential diagnosis of an abdomino-pelvic lump in a patient of peri-menopausal age.

20

Question 4

State the different methods of hormonal contraception. Comment on the merits and demerits of hormonal contraceptive methods available in our National Family Welfare Programme.

20

Question 5

Write short notes on:

5 x 4=20

- a) Hormone Replacement Therapy.
- b) Assisted Reproductive Technology.
- c) Galactorrhoea.
- d) Hysteroscopy.

DIP.G.O. EXAMINATION 2008

Paper II GYNAECOLOGY

Time : 2 hrs.

Question 1. **20**

A 15 year old girl is brought to you with heavy menses for last 6 months.
How will you investigate and treat such a case?

Question 2. **20**

What are the causes of uterine prolapse?
How will you manage second degree uterine prolapse in a woman during
childbearing period?

Question 3. **20**

What do you know about early diagnosis and prevention of cervical
carcinoma?

Question 4. **20**

Define endometriosis. What are the symptoms and how will you treat such
a case?

Question 5. **20**
Write short notes (any four)

- a) Non scalpel vasectomy
- b) Emergency contraception
- c) Diagnosis of poly cystic ovary syndrome
- d) Low dose CC pill
- e) Monilial infection of genital tract

Dr. C.S. DAWN ICMCH
FINAL EXAMINATION DIP. G.O. – 2009
Paper II
Gynaecology

Time : 2 hrs
Marks : 100

- | | | | |
|-----------|----|--|-----|
| Q1 | a | Enumerate causes of Secondary Amnorrhoea | 8 |
| | b | What basic endocrinal investigations are done in such a case? | 5 |
| | c | How do you diagnose and manage a case of PCOS? | 12 |
|
 | | | |
| Q2 | a | What are different causes of acute pain abdomen in a women of aged 21 years? | 7 |
| | b | How will you manage a case of twisted ovarian cyst in such a woman? | 18 |
|
 | | | |
| Q3 | a | What are the female factors in infertility? | 10 |
| | b | How do you evaluate cervical factors? | 9 |
| | c. | How do you treat when there is Cervical mucus hostility? | 6 |
|
 | | | |
| Q4 | | WRITE SHORT NOTES ON : | |
| | a | Emergency Contraception | 7.5 |
| | b | Barrier Contraception | 7.5 |
| | c | Minilap Tubectomy | 10 |

DIP G.O. SUPPLEMENTARY EXAMINATION
Paper II
2009 – 9/09 DB
Gynaecology

Time : 2 hrs

Marks : 100

- Q1**
- a Describe the morphology of ovary. 10
 - b Describe its structure. 10
 - c What are the hormones secreted by ovary. 2
 - d Describe its Arterial supply and venous drainage. 3
- Q2**
- a What is Menorrhagia ? 2
 - b Enumerate the causes of Menorrhagia. 8
 - c How you investigate a case of fibroid of uterus with Menorrhagia? 5
 - d How will you treat such a case? 10
- Q3**
- a What is Cervical Intra epithelial Neoplasia (CIN) and its different grades? 6
(Simple enumeration will not do)
 - b What is its clinical feature? 2
 - c How do you diagnose a case of CIN? 7
 - d How do you do treat? 7
 - e What is prophylaxis against cancer cervix? 3
- Q4** **Write Short Note**
- a Newer contraceptives 10
 - b Emergency Contraception 7
 - c Minilap Tubectomy. 8

Dip GO FINAL EXAMINATION 2010

Paper II Gynaecology

Time : 2 hrs

Marks : 100

**Please write the question nos and allotted marks (do not write the question).
Answer questions in the same order as serially printed.**

- Q1** a Describe Pelvic Part of ureter. 10
b What are the common sites of ureteric injury? 7
c How can you prevent injury of ureter during Gynaecological operations? 8
- Q2** a A 13 yrs old girl is brought with heavy menses. How will you investigate 25
and treat such a case?
- Q3** a What are the clinical features of PCOS? 10
b Treatment of PCOS in women 6+6
i. not desiring a baby
ii. desiring a baby
c What are the long term effect of PCOS 3
- Q4** **Write short note:**
- a No scalpel vasectomy 8
b Emergency contraception 6
c Combined oral contraceptive pill 6
d Monilial infection of genital tract 5

Dip GO SUPPLEMENTARY EXAMINATION 2010

Paper II

Gynaecology

Centres : Kolkata

Time : 2 hrs

Marks : 100

**Please write the question nos and allotted marks (do not write the question).
Answer questions in the same order as serially printed.**

- Q1** a Describe Physiology of menstruation. 25
(emphasize upon endocrine mechanism, ovarian cycle and uterine cycle)
- Q2** a What are the different types of fibroid? 3
b What are the symptom and signs of fibroid uterus 7
c How do you treat a case of corporeal fibroid? (Medical, non Medical and 15
surgical management)
- Q3** a Define Manorrhagia . 2
b What are the etiology of Menorrhagia? 6
c Describe the symptoms signs and management of dysfunctional uterine 17
haemorrhage.
- Q4** **Write short note:**
- a Condom 7
b Vaginitis 6
c Minilap Tubectomy 6
d IUCD 6

Dip GO FINAL EXAMINATION 2011

**Paper II
Gynaecology
Centres : Kolkata**

**Time : 2 hrs
Marks : 100**

**Please write the question nos and allotted marks (do not write the question).
Answer questions in the same order as serially printed.**

- Q1**
- a Define Dysmenorrhea 1
 - b Clinical features of Primary Dysmenorrhea. 6
 - c Clinical features of Secondary Dysmenorrhea 5
 - d How do you treat a case of Primary Dysmenorrhea? 7
 - e How do you treat a case of Secondary Dysmenorrhea (in short)? 6
- Q2**
- a Define genital prolapse. 1
 - b What are the different clinical types of vaginal prolapse? 6
 - c What is the etiology of genital prolapse? 5
 - d Complication of genital prolapse. Describe the steps of anterior colporrhaphy. (Diagram is must) 13
- Q3**
- a Describe the differential diagnosis of suprapubic lump. 10
 - b Management of a case of fibroid uterus in 30 year old women. 15
- Q4 Write short notes on**
- a Hormone Replacement Therapy 10
 - b Write down the steps of operation of minilap in a non pregnant Woman 10
 - d Female condom 5

Paper - II

Date : 20-02-2015

Time : 3 hrs

Marks : 80

**Please write the question nos and allotted marks (do not write the question).
Answer questions in the same order as serially printed.**

- Q 1. Discuss the physiology of Normal Menstruation. (Diagrams are must)
(20)
- Q2. A. Describe the different symptoms of fibroid of uterus and explain each of them.(6)
- B. What are the indications of Myomectomy in Fibroid of uterus.
(8)
- C. What are the different conventional methods of Myomectomy.
(6)
(steps need not be described)
- Q3. A. What are the causes of Secondary Amenorrhoea?
(6)
- B. Describe the systematic approach of investigating a case of Secondary Ameenorrhoea
(8)
- C. How do you treat such a case.
(6)
- Q4. **Write Short notes on:**
(5+10+5=20)
- a. Complication of Benign Ovarian Tumors
- b. HRT & different routes of administration
- c. Senile vaginitis

FINAL EXAMINATION 2015
DIPLOMA IN OBSTETRICS & GYNAECOLOGY
Under NARCHI – KSOU Programme

Paper - II

Date : 21-08-2015

Time : 3 hrs

Marks : 80

**Please write the question nos and allotted marks (do not write the question).
Answer questions in the same order as serially printed.**

- | | | |
|-----------|--|----|
| Q1 | Discuss physiology of menstruation (Diagram are must) | 20 |
| Q2 | How do you investigate and treat a case of Primary infertility? | 20 |
| Q3 | a. Define Heavy Menstrual Bleeding. | 2 |
| | b. What are the causes of Heavy Menstrual Bleeding? (simple enumeration will not suffice) | 6 |
| | c. How do you clinically evaluate such a case (History, examination, investigation, histological assessment of endometrium and evaluation of endometrial cavity) | 6 |
| | d. How do you manage such a case. | 6 |
| Q4 | Write short note on | |
| | a. Monilial and Trichomonal Vaginitis | 6 |
| | b. Cryptomenorrhoea | 6 |
| | c. Pelvic part of Ureter (diagram is must) | 8 |

PRE-FINAL APPRISAL EXAMINATION 2016
DIPLOMA IN OBSTETRICS & GYNAECOLOGY
NARCHI – KSOU Programme

Paper II

Date : 23-12-2016

Time : 2 hrs

Marks : 80

**Please write the question nos and allotted marks (do not write the question).
Answer questions in the same order as serially printed.**

- Q1** Discuss the physiology of menstruation (Diagrams are must) 20
- Q2**
- a. What is the picture of normal semen analysis (WHO criteria) 6
 - b. Enumerate the male factor in infertility 7
 - c. How do you manage the female partner who is having anovulation 7
- Q3**
- a. What are the causes of Secondary amnorrhoea 5
 - b. Describe the systematic approach of investigating a case of Secondary Amnorrhoea 10
 - c. How do you treat such a case 5
- Q4** **Write short notes on**
- a) Cervical Polyp and its management 8
 - b) Trichomonal and monilial vaginitis 8
 - c) Fallopian Tube 4
